

Workshop D – Small Scale Rural Regeneration Projects (20 October)  
Workshop leader: Simon Fairlie from Chapter 7

Notes from workshop attendee:

- 1) Rural housing affordability – there should be a template for a standard legal agreement.
- 2) Local plans do not currently reflect current government policy (National policy guidelines).
- 3) There should be more support from the government around skills needs for individuals/communities who wish to build their own houses.
